MANGINI WORKSPACE

Da oltre 60 anni creiamo spazi di lavoro che interpretano le necessità dei nostri clienti. Per rispondere alle nuove esigenze e completare la nostra proposta abbiamo integrato la produzione di pareti divisorie con degli elementi di interior design: scrivanie e contenitori multifunzionali. Gli spazi dedicati all'ufficio richiedono soluzioni sempre più efficaci ed estetiche integrate.

For over 60 years we have been creating workspaces that meet the needs of our customers. In order to fulfil new requirements and complete our proposal we have integrated the production of mobile partitions with interior design elements: desks and multifunctional containers. Spaces dedicated to the office require increasingly effective and integrated aesthetic solutions.

Depuis plus de 60 ans, nous créons des espaces de travail qui interprètent les besoins de nos clients. Pour satisfaire les nouvelles exigences et compléter notre proposition on a intégré la production des cloisons amovibles avec des éléments de design d'intérieur: bureaux et conteneurs multifonctionnels. Les espaces dédiés au bureau nécessitent des solutions esthétiques de plus en plus efficaces et intégrées.

Boston

Boston: bench 4 posti / 4 seater bench / banc 4 postes

La linearità geometrica delle scrivanie Boston è stata studiata per integrarsi facilmente ai diversi ambienti lavorativi, dai più sofisticati a quelli più minimal. La struttura in metallo consente l'incasso dei piani di lavoro perfettamente a filo e la privacy, tra le postazioni, è garantita con elementi verticali attrezzabili.

The geometric linearity of Boston desks has been studied to easily integrate with different work spaces from most sophisticated to the most minimal. The metal structure allows worktops to be built in perfectly flush and the workstations privacy is guaranteed with vertical elements that can be equipped.

La linéarité géométrique des bureaux Boston a été conçue pour s'intégrer facilement dans différents environnements de travail, du plus sophistiqué au plus minimal. La structure en acier permet l'encastrement des plans de travail parfaitement à fil et l'intimité entre les positions est assurée avec éléments verticaux équipables.

Oslo Wood:
scrivania / desk / bureau

La struttura dinamica è impreziosita dalla naturalità e dal calore del legno. La combinazione di questi due materiali accresce la qualità degli ambienti di lavoro. Il sistema prevede scrivanie singole, postazioni aggregate e tavoli riunioni. I piani di lavoro sono fissati a filo struttura.

The dynamic structure is enhanced by the naturalness and warmth of the wood. The combination of these two materials increases the quality of the working environments. The system includes individual desks, aggregated workstations and meeting tables. The work plans are fixed flush with the structure.

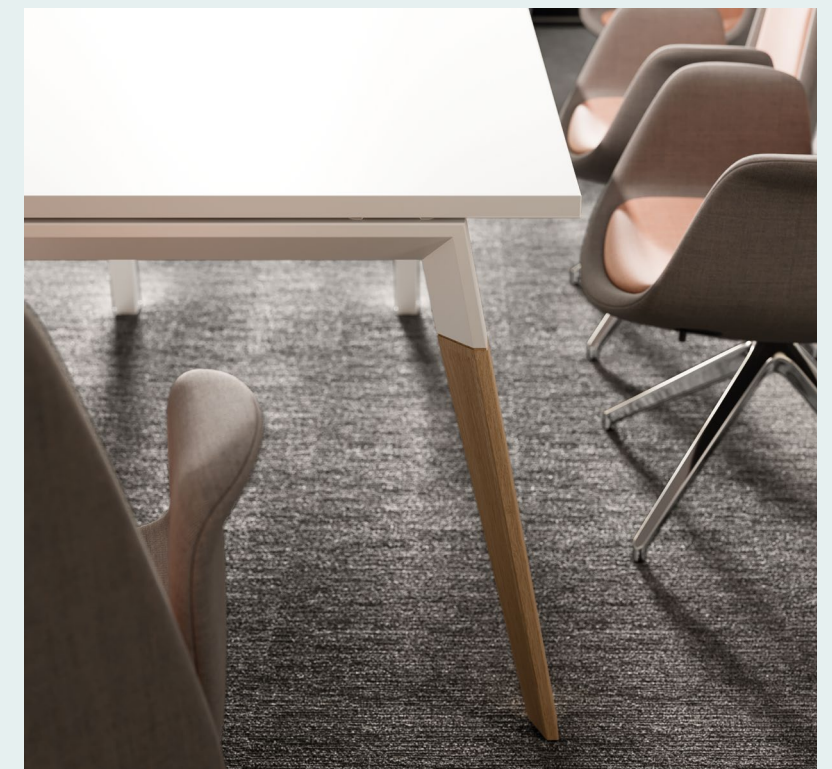

La structure dynamique est renforcée par le naturel et la chaleur du bois. La combinaison de ces deux matériaux augmente la qualité du lieu de travail. Le système comprend des bureaux individuels, des postes de travail agrégés et des tables de réunion. Les plans de travail sont affleurants avec la structure.

La massima funzionalità si sposa con uno stile lineare. I tavoli e le scrivanie Oslo offrono soluzioni versatili che assolvono alle diverse necessità di creare postazioni di lavoro singole o multiple. L'elemento distintivo è la struttura a ponte con gambe inclinate a sezione trapezoidale.

Maximum functionality is combined with a linear style. Oslo tables and desks offer versatile solutions that meet the different needs of creating single or multiple workstations. The distinctive element is the bridge structure with inclined trapezoidal section leg.

Une fonctionnalité maximale est combinée avec un style linéaire. Les tables et bureaux Oslo offrent des solutions polyvalentes qui répondent aux différents besoins de création de postes de travail simples ou multiples. L'élément distinctif est la structure à pont avec des pieds inclinés à section trapézoïdale.

Atene

Linea Operative friendly-bench progettata per offrire configurazioni smart e flessibili. La regolarità delle forme e la possibilità dell'accostamento frontale e laterale consente ampia libertà di personalizzazione.

Friendly-bench operational line designed to offer smart and flexible configurations. The regularity of the shapes and the possibility of frontal and lateral juxtaposition allows ample freedom of customization.

Ligne opérationnelle friendly-bench conçue pour offrir configurations smart et flexibles. La régularité des formes et la possibilité de juxtaposition frontale et latérale permettent une grande liberté de personnalisation.

Lockers

Contenitori realizzati per custodire, negli ambienti di lavoro open space, oggetti e documenti personali nel rispetto della privacy. Due proposte caratterizzate entrambe dalla modularità e dalla possibilità di personalizzare con molteplici finiture e accessori.

Containers designed to store personal objects and documents in open space workplaces while respecting privacy. Two proposals both characterized by modularity and the ability to customize with multiple finishes and accessories.

Conteneurs conçus pour stocker des objets personnels et des documents dans des espaces de travail ouverts tout en respectant la privacy. Deux propositions caractérisées à la fois par la modularité et la possibilité de personnaliser avec de multiples finitions et accessoires.

Flower box

Il sistema di contenitori FlowerBox si caratterizza per l'integrazione delle fioriere che, ospitando piante, contribuiscono a rendere gli spazi openspace piacevoli e accoglienti. E' risaputo che l'inserimento del verde negli ambienti di lavoro aiuta a migliorare il benessere delle persone e a purificare l'aria. Il loro utilizzo può essere destinato alla suddivisione degli spazi oppure, in alternativa, completare postazioni singole e bench.

The FlowerBox system of containers is characterized by the integration of flower boxes which, by hosting plants, help to contribute the open space places pleasant and comfortable. It is well known that the inclusion of greenery in the workplace helps to improve people's well-being and purify the air. Their use can be intended for the division of spaces or, alternatively, complete single workstations and benches.

Le système de conteneurs FlowerBox se caractérise pour l'intégration des plantiers qui, en accueillant des plantes, contribuent à rendre les espaces open-space agréable et confortables. On sait que l'insertion du vert dans les espaces de travail aide à améliorer le bien-être des personnes et à purifier l'air. Leur utilisation peut être destinée à la répartition des espaces ou, autrement, compléter des postes de travail individuels et des bancs.
